

## CONTENTS

- 625 A Method to Synthesize High-Precision Motion Control Systems for Underwater Manipulator  
*Filaretov, V. F.; Konoplin, A. Y.; Zuev, A. V. & Krasavin, N. A.*
- 637 Numerical Model for Worm Gear Pair Inspection Based on 3D Scanned Data  
*Masovic, R.; Breski, T.; Cular, I.; Vuckovic, K. & Zezelj, D.*
- 649 Role of Operator Training Simulators in Hydrocarbon Industry – a Review  
*Kallakuri, R. & Bahuguna, P. C.*
- 661 CoDEVs: an Extension of DEVs for Integration of Simulation and Machine Learning  
*Kim, B. S.; Kim, T. G. & Choi, S. H.*
- 672 Simulation Based Resource Capacity Planning with Constraints  
*Ojstersek, R. & Buchmeister, B.*
- 684 Numerical Simulation of Coarse Particle Two-Phase Flow in Two-Stage Vortex Pump  
*Shi, H. X.; Meng, J. & Li, Y.*
- 696 Numerical Model Application to Predict the Sound Quality of an Instrument  
*Ray, T.; Kaljun, J. & Dolsak, B.*
- 707 Data-Driven Robust Model for Container Slot Allocation with Uncertain Demand  
*Ma, X. Y.; Lin, Y. & Ma, Q. W.*
- 719 A Multi-Objective Genetic Algorithms Approach for Modelling of Order Picking  
*Gajsek, B.; Dukic, G.; Kovacic, M. & Brezocnik, M.*
- 730 Congestion Risk Propagation Model Based on Multi-Layer Time-Varying Network  
*Huang, J. H.; Sun, M. G. & Cheng, Q.*
- 742 A Simulation Method for Rail Transit Sign Optimization  
*Ouyang, K. M. & Liu, S. F.*
- 754 Electric Vehicle Charging Station Layout Based on Particle Swarm Simulation  
*Liu, J.-Y.; Liu, S.-F. & Gong, D.-Q.*
- 766 Analysis of the Force Response of a Double-Canopy Hydraulic Support under Impact Loads  
*Meng, Z. S.; Zhang, J. M.; Xie, Y. Y.; Lu, Z. G. & Zeng, Q. L.*
- 778 Manufacturing Capacity Evaluation of Smart Job-Shop Based on Neural Network  
*Wang, M.*
- 790 Demand Prediction and Allocation Optimization of Manufacturing Resources  
*Meng, J. L.*
